

Kraus - Anderson® Minneapolis Monthly Electric Comparison

- Energy use in our Minneapolis Office has been declining consistently. From 4/1/11 – 3/31/12, we have saved \$10,437 compared with the same period the previous year, which is the baseline year. So give yourselves a pat on the back! But continue your good energy saving habits, such as turning off lights and computer monitors when not in use.
- We have reduced our electric usage by 17% in the previous year.
- The Minneapolis Office has a real opportunity to become an Energy Star Certified Building. On Energy Star's 100 point scale, we have moved from a rating of 53 to 65 in less than one year. Energy Star requires a rating of at least 75 to be eligible.
- Your dedication to energy savings is clear on the graph above. Together, we will continue to achieve amazing results!
